

COVID-19 Challenge

JI-CFE calls all JI students

to use this crisis as an opportunity to test your creativity

The COVID-19 outbreak has affected all areas of our life and innovation is needed everywhere to improve our life under such an epidemic. Is there an issue that you think can be improved?

- **Observe** and think about **the problem** carefully,
- **Brainstorm your solution:**
individual or in a team of 2-5 students, non-JI students can also participate in a team but the team leader must be a JI student
- **Summarize the problem and solution** into 2-4 ppt slides
- **Email it to** ji-cfe@sjtu.edu.cn by 5pm. Sunday, Mar. 22

Your submission (2-4 pages PPT) should include. . .

- 1) A **title page** including your names and emails
- 2) Description of the **problem**
 - What is the problem and who suffers from it?
 - How wide spread is this problem?
 - Provide evidence (something you read or heard from reliable sources, provide sources in notes)
- 3) Description of your **solution**
 - Technological (apps, systems, devices, . . .) or
Non-technological: organization, business model, policy for government, schools and neighborhood . . .

What will happen next?

- JI-CFE will make shortlist some of the projects (announced by March30th)
- shortlisted projects will receive comments for improvement through workshops/mentoring
- the final winner will be decided in May
